If the name contains the word "dungeon," then the authors definitely repelled the classic D&D (dungeons and dragons) game mechanics. The developers confirm this assumption. This project is another tribute to the good old 3D role-playing games. You have to survive in a gloomy dungeon, facing creatures of different races. Special fighting tactics should be judiciously selected for each of them. In this, spells will come to the rescue, which you will comprehend during the gameplay. The game is designed for offline, so you can even download such a [Unblocked Games 66 ez](#) on a trip. The connection is only needed to download new content, adventures and fresh spells.
